Subject: RIII UCMR3 Detects Reported Since 2/16/2016
Attachments: 2016_2_22 PFOS no change.xlsx; 2016_2_22 PFOA no change.xlsx; 2016_2_22 1,4-Dioxane no change.xlsx; 2016_2_22 1,2,3-TCP no change.xlsx

Rick, Karen, and Karrie,

Regarding the UCMR3 monitoring results within RIII, the four contaminants of interest did not have any new detects reported to EPA during the past week.

As before, attached for your information are RIII detects (> Minimum Reporting Levels) of the four contaminants of interest. The data are cumulative since Jan. 2013 when the UCMR3 monitoring began.

Please let me know if you have any questions.

Thanks.

Michelle
